WORKPLACE OF THE FUTURE 2021 REPORT

We've compiled a report with insights from leading industry experts to provide businesses with more of an understanding around how the world's most challenging year transformed the way we work, and what this means for employers and employees moving forward.

COFFEE PLAYS A KEY ROLE IN BUILDING WORKPLACE RELATIONSHIPS

In the rapidly evolving workplace of the future, businesses need to embrace four key pillars; culture, design, technology & sustainability in order to attract and retain staff.

Since returning to work, employees are placing more focus on relationships and personal wellbeing. The Workplace of the Future 2021 Research report found that it will be necessary for workplaces to show that they are committed to office culture and enhancing staff interactions and team-building opportunities.

63%

of respondents see human connection as a benefit of returning to the workplace.

QUALITY COFFEE PLAYS AN IMPORTANT ROLE IN THE FUTURE OF WORK

With employees returning to the office, the Workplace of the Future 2021 Research Report found that employees will be seeking the same, if not better, luxuries and experiences to those they enjoyed whilst working from home. This includes beneficial break times and access to premium and easy-to-make beverages. Catching up with a colleague over a quality coffee in the office kitchen can be a way for co-workers to reconnect as they return to the office.

65%

of respondents expect high quality coffee in the workplace, and 77% agree that morning coffee breaks are important.

WHY **NESPRESSO** MOMENTO IS THE PERFECT FIT FOR YOUR BUSINESS NEEDS

ENJOY LATTES, CAPPUCCINOS AND FLAT WHITES

Using the **Nespresso** Momento Coffee & Milk machine or purchase a **Nespresso** milk frother to bundle with the **Nespresso** Momento Coffee machine.

INTUITIVE DESIGN & CAPSULE RECOGNITION

Intuitive and easy to use, the touch screen display guides your employees and customers step by step on how to extract an exceptional cup of coffee. Smart capsule recognition technology individually reads each capsule, and recommends the optimal coffee extraction length so your staff can create a consistent and high quality coffee each time.

A FULL RANGE OF COFFEE STYLES

From ristretto to americano, and macchiato to latte, your employees and customers can recreate their favourite coffee.

MAKES MAINTENANCE STRESS FREE

The machine is easy to clean, with step by step instructions displayed on the touch screen display.

TOUCHLESS COFFEE EXTRACTION

With health and safety in mind, your team and customers can scan a QR code to extract their coffee.

ENVIRONMENTALLY CONSCIOUS

We believe that every cup of coffee should have a positive impact. That's why we've designed the **Nespresso** Momento with long lasting components with easily changeable elements. It also has programmable energy saving modes.

- **Power supply for the payment dispenser:** 240 V / 50 Hz / 15 W.

COFFEE THAT UNDERSTANDS MILK

TO COMPLEMENT YOUR COFFEE EXPERIENCE, WE'VE DESIGNED TWO NEW PERMANENT COFFEE BLENDS WHICH HAVE BEEN SPECIALLY CRAFTED TO BE ENJOYED WITH MILK

To create the two new additions to the **CREATIONS** coffee range, **Nespresso** first had to understand the characteristics of milk and its flavour profiles when paired with coffee. The unique blends were designed from a combination of specially chosen beans from across the globe, with a refined process of roasting and grinding to extract the individual qualities and notes of each bean.

The result is **BIANCO DELICATO & BIANCO INTENSO**, two new coffees crafted specially for your cappuccino or lattes, just add milk to enjoy.

CREATIONS

BIANCO DELICATO

Serving suggestion

ORIGINS

KENYA & INDONESIA

VARIETAL

ARABICA

PROFILE

CARAMEL & SWEET BISCUIT

40 mL

Delicious caramel and biscuit notes will be revealed whilst enjoying this coffee, ideally as a cappuccino.

CREATIONS

BIANCO INTENSO

Serving suggestion

ORIGINS

COLOMBIA & ETHIOPIA

VARIETAL

ARABICA

PROFILE

ROASTED & CEREAL

40 mL

The dark roasted aromas of this blend balance beautifully with the sweetness of milk. Recommended to be enjoyed as a flat white or latte.

CAPSULE RECYCLING
To encourage your employees and customers to recycle their used **Nespresso** aluminium capsules, we offer a complimentary bulk recycling solution to our customers.

AFFORDABLE
No upfront cost for the coffee machine.
Lower price per cup for higher coffee volumes.
Cost savings year on year for long term contracts.

^Includes any repairs necessary as a result of reasonable use or normal wear and tear from proper usage, and any repairs for accidental damage to the machine caused by the customer's employees or visitors.
*Minimum capsule purchase requirements per machine still apply.
The standard price of **Nespresso coffee capsules is subject to change at **Nespresso**'s discretion at any time.

BECAUSE COFFEE CAN BE A FORCE FOR GOOD

FROM THE CHERRY TO THE CUP – AND BEYOND

Nespresso together with the Rainforest Alliance initiated the AAA Sustainable Quality™ Program in 2003.

Our goal was to build long-term and direct relationships with coffee farmers from the world's best coffee growing regions, and improve their productivity, sustainability as well as coffee quality.

As of 2021, we work with 110,000 coffee farmers in over 14 coffee growing countries. We source 95% of our permanent coffee through the AAA Sustainable Quality™ Program.

Find out more about our sustainability initiatives on our **website**.

ALL ALUMINIUM CAPSULES COLLECTED BY **NESPRESSO** ARE RECYCLED

Nespresso Australia is committed to ensuring that we are a part of a circular coffee economy. Through our nationwide recycling program, we ensure that both the coffee grounds and aluminium from used **Nespresso** capsules have the potential to go on to have a second life. The coffee grounds can be used for nutritious compost, whilst aluminium can be used to create a new object, like a pen or bicycle. To help make aluminium capsule recycling easy in your business, we are proud to offer a complimentary bulk recycling solution to our partners. Visit our **website** to find out more about how your business can participate in our recycling program.

EVERY CUP OF **NESPRESSO** COFFEE WILL BE CARBON NEUTRAL BY 2022

We are continuing to reduce the footprint of each cup, and are expanding tree planting in and around coffee farms to compensate the remaining emissions of a cup of **Nespresso** with our NGO partners, the Rainforest Alliance and PUR Projet.
Discover more about our sustainability commitments on our **website**.
