

## HOW TO USE THE CAPPUCCINATORE CS20 MILK FROTHER WITH THE AUTOCAPPUCCINATORE

Macchiato

Cappuccino

Latte

### BEFORE USING THE MILK FROTHER

For a macchiato, cappuccino or latte, we recommend that you extract a 40mL espresso using your business' **Nespresso** Professional coffee machine.

### STEP 1 – PLACE CUP

Place your cup of coffee under the steam head on the Cappuccinatore CS20 milk frother.

### STEP 2 – MACCHIATO

**Macchiato:** Press the '+' button briefly for a touch of milk froth.

### STEP 3 – OTHER MILK COFFEES

**Cappuccino:** Move the dial on the Autocappuccinatore to the left so it's on the 'cappuccino' setting.

**Latte:** Move the dial on the Autocappuccinatore to the right so it's on the 'caffè latte' setting.

Press the ☕ button for milk to start pouring into your cup.

### FOR MORE MILK

If you're wanting more milk froth, hold down the '+' button shown in Step 2.
