### LET'S MAKE IT!

#### STEP 01

Put a generous scoop of pistachio ice cream\* into a cappuccino glass. \*Feel free to try it with any flavour of your choice

#### STEP 02

Pour the coffee directly on top of the ice cream. Insert the coffee in the machine and press the button for a perfect extraction. You will notice that the ice cream doesn't melt immediately so coffee remains dark. The cream on top stays thick and stable with a lighter colour.

#### STEP 03

Lightly sparkle the ice cream with chopped pistachios
