

LATTE MACCHIATO

🕒 ⏱ Easy

MATERIAL

Aeroccino Milk Frother
Nespresso VertuoPlus

RECOMMENDED NESPRESSO COFFEES

INGREDIENT(S)

Milk
1 cup 

Melozio
1 capsule 

INSPIRATIONS

LET'S MAKE IT!

STEP 01

The first step is simply to froth the milk. Fill the Aeroccino frother up to the first line and press the button to start frothing.

STEP 02

Once the milk is frothed, you just pour it into a large measuring cup. Then, you wait about one minute for the milk and the foam to separate. That's what will create the layers a little later on.

STEP 03

Brew the coffee. Insert a Melozio coffee capsule into the Vertuo Line machine and press the button to get the perfect extraction.
