

## RESTARTING YOUR ZENIUS MACHINE AFTER A PERIOD OF STAGNATION

Your health and safety is our first priority. We want to make it easy for you to clean and check that your **Nespresso** Professional coffee machine is running smoothly again after a long time of non-use.

Zenius

- ① Rinse water tank, empty drip tray and capsule container.
- ② Eject remaining used coffee capsules in the brewing chamber by releasing the lever.
- ③ Plug your machine into the wall power outlet and power on by using the switch located on the topside of your machine (see picture on left).
- ④ Before creating any beverage, dispense 1 litre of hot water using the hot water button.
- ⑤ If your machine does not switch on, ensure the water tank is properly seated, lid is locked against the machine and ensure the power plug is fully inserted into underside of your machine.
